

THE UNION OF SANCTIONED BANKS

A comprehensive study on
CBDC Service

THE FUTURE OF BANKS

How unsanctioned banks come under global play.

Digital availability .

Access to global stock market and future trends.

THE ENTRY OF NEW AMMEND

- ◆ Now banks become the new data collection centers responsible for person transactions under RBI statements
- ◆ Major law advancements to accept digital currency for international exchanges.
- ◆ Transaction surveillance not only becomes a national cause but can be integrated to international systems for national and continental market tracking.
- ◆ Digital availability for every citizen in a decade.
- ◆ Sanctioned countries can now enter global market with full digitalisation and secure transaction.
- ◆ Offline features with NFC, conditional payments with subsidies allotment.

THE BIG PROJECT TO LEAD ECONOMY

- ◆ “The primary difference between UPI and CBDC is that the former is actually digital money, whereas CBDC is digital currency, it’s cash in a digital form,” Raghuram Govind Rajan said, while speaking at Moneycontrol India Web 3.0 summit in Mumbai.
- ◆ RBI has selected nine banks for participation in its pilot project including State Bank of India, Bank of Baroda, Union Bank of India, HDFC Bank, ICICI Bank, Kotak Mahindra Bank, Yes Bank, IDFC First Bank, and HSBC.
- ◆ China Digital-Yuan, European Union, Bahamas Sand Dollar, Caribbean DCash

Terms and Conditions Privacy Policy

fiat currency.
